Property Description

Location: Jolly Harbour, Saint Mary

Take a look at the last available plot on the stunning Reeds Point, a private peninsula located on the northern end of Jolly Harbour.

This is a prime piece of building land with infrastructure already in place, positioned between two newly completed luxury villas and just waiting for the construction of your very own dream home.

This 0.39 acre plot boasts both hillside and waterfront views of the islands surrounding Antigua, including Monserrat and St Kitts and Nevis. It is also easily accessible, with convenient access to all the amenities that the secure and private gated community of Jolly Harbour has to offer. Including a popular 18-hole golf course, full selection of water sports, 25m pool, tennis courts, squash court and a fully equipped gym. Community residents also enjoy an excellent selection of shops, bars and restaurants, a comprehensive supermarket, and onsite banking facilities.

Luxury Locations can help you with every part of your journey as you build your dream home in paradise, everything from the initial purchase of the land, through the design and build stages, and all the way to taking care of property management on completion. We can even organise holiday rental clients, in order to generate income for you while you are off island, if that is what you desire. So get in touch directly to find out more.-
